

Leopold Wetland Management District

The Leopold Wetland Management District is named after Aldo Leopold who is widely acknowledged as the father of wildlife conservation in America. Leopold is perhaps best known as the author of *A Sand County Almanac*, a book compiled of essays written on his farm in central Wisconsin. In tribute to his philosophy, the Leopold Wetland Management District is dedicated to preserving, restoring, and enhancing wildlife habitat in Wisconsin for the benefit of present and future generations.

The Leopold Wetland Management District manages over 13,000 acres of Waterfowl Production Areas (WPAs). WPAs are purchased with proceeds from the sales of Federal Duck Stamps and are owned by the Federal government. The lands are managed as part of the National Wildlife Refuge System, which is administered by the U.S. Fish and Wildlife Service.

Wetlands on WPAs are restored and maintained for the benefit of migratory birds and other wildlife. Uplands are restored to grasslands, generally planted with native prairie grasses and forbs to provide nesting habitat.

Partners for Fish & Wildlife Program Partners for Fish & Wildlife is a stewardship program for the restoration and protection of wetlands and other wildlife habitats on privately owned lands. Leopold Wetland Management District can offer you technical and financial assistance.

For further information on Wisconsin fishing, hunting regulations and licenses contact the: Wisconsin Department of Natural Resources office nearest you, or call the DNR Information Center at (608) 266-2621.
